

16 Hour Maritime Night Vision Operator's Course

Presented By: Evolution Training and Consulting

Hosted By: TBD

Dates: TBD

Student Cost: \$400

The 3 Day Maritime Night Vision Operator's Course is a culmination of years of actual law enforcement operational experience and training. This course is a user level course that explores the various applications of night vision goggle in a maritime environment. It will provide the student with the training and knowledge to better understand both the limitations and the enhanced officer safety and tactical advantage of night vision goggles while working in a maritime law enforcement environment.

Course Topics:

- > **Nomenclature**
- > **Proper setup and mounting**
- > **Capabilities and limitations**
- > **Care and maintenance**
- > **Use with weapon system lasers and lights**
- > **Use during open water and Intracoastal waterway searches and operations**
- > **Use while operating a vessel in low and no light conditions**

Student equipment required:

- > **Bump helmet with night vision mount / Vest / Duty Gear/PFD**
- > **Night Vision with helmet mount**
- > **Clear Eye Pro / Ear Pro**
- > **Rifle/Pistol w/ mounted light**
